

Research Group

Prof. Dr. M. Lütfi ÖVEÇOĞLU

About:
Interest Areas:

Powder Metallurgy, Analytic Electron Microscopy, Glass and Ceramics, Dislocation Dynamics

Contact information:

ovecoglu@itu.edu.tr

[CV](#)

Res. Assist. Hasan GÖKÇE

Research:

Powder Metallurgy Particulate based Ceramic and Metallic systems, Mechanical Alloying, nano particle powder production, High shock resistant ceramic based materials.

About:
Contact information:

gokceh@itu.edu.tr

[CV](#)

Res. Assist. Hülya KAFTELEN**Research:**

Production of Al matrix composites by powder metallurgy.
Interest Areas: Mechanical Alloying, Ni based superalloys, High Temperature Properties of Materials, Composites with adhesive binders.

About:

Metallurgical and Materials Engineering Program, PhD.

Contact information:

kaftelen@itu.edu.tr
